### Re: Ferley Consolidated Drain Maintenance and Improvement Project

Dear Property Owner:

You are receiving this letter because you own property in Delhi Charter Township in the area where the Ferley Consolidated Drain Maintenance and Improvement Project will be occurring soon (please see attached map). The project involves installing a new storm sewer on a portion of Dell Road to relieve longstanding flooding problems in the area. Barring any unforeseen delays and weather permitting, the work is scheduled to begin on **Monday, April 16, 2018** and will take approximately four to six weeks to complete.

The portion of Dell Road within the construction zone will be closed daily to through traffic from 7 a.m. to 7 p.m., with traffic detoured onto Willoughby Road to go around the construction site. Even though the road will be closed to through traffic, accommodation will be made for the several residences along Dell Road that are within the construction zone. Residents of these homes will be able to come and go during the day. **Please note that although through traffic will be detoured, access to neighborhood streets off Dell Road and Pine Tree Road will remain open during construction, as none of these are within the construction zone.** Every evening, Dell Road will be re-opened to through traffic as normal; however, there will be a gravel base on the portion of the road in the construction zone where the pipe has been installed. Upon completion of all of the pipe work, the road will be resurfaced.

Although there is no way to avoid the inconvenience attendant with this or any other infrastructure construction project, I want you to know that my Office is absolutely committed to doing everything possible to minimize the impact on you and your family's daily lives. Drain Office and other Project staff will be on site during all construction activities should questions or concerns arise, and they will also be available anytime by phone and Internet (see contact information below). In addition, a Project website (see below) has been created to help keep you better informed as construction progresses.

(OVER)

In closing, please know that I consider it a great honor and privilege to serve you and the other citizens of Ingham County. My staff and I work for you, and your satisfaction with the drain construction project is of paramount importance to us.

I thank you for your patience during this construction project. Please do not hesitate to contact my staff or me if we can be of any service to you.

Respectfully yours,

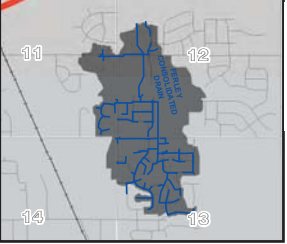

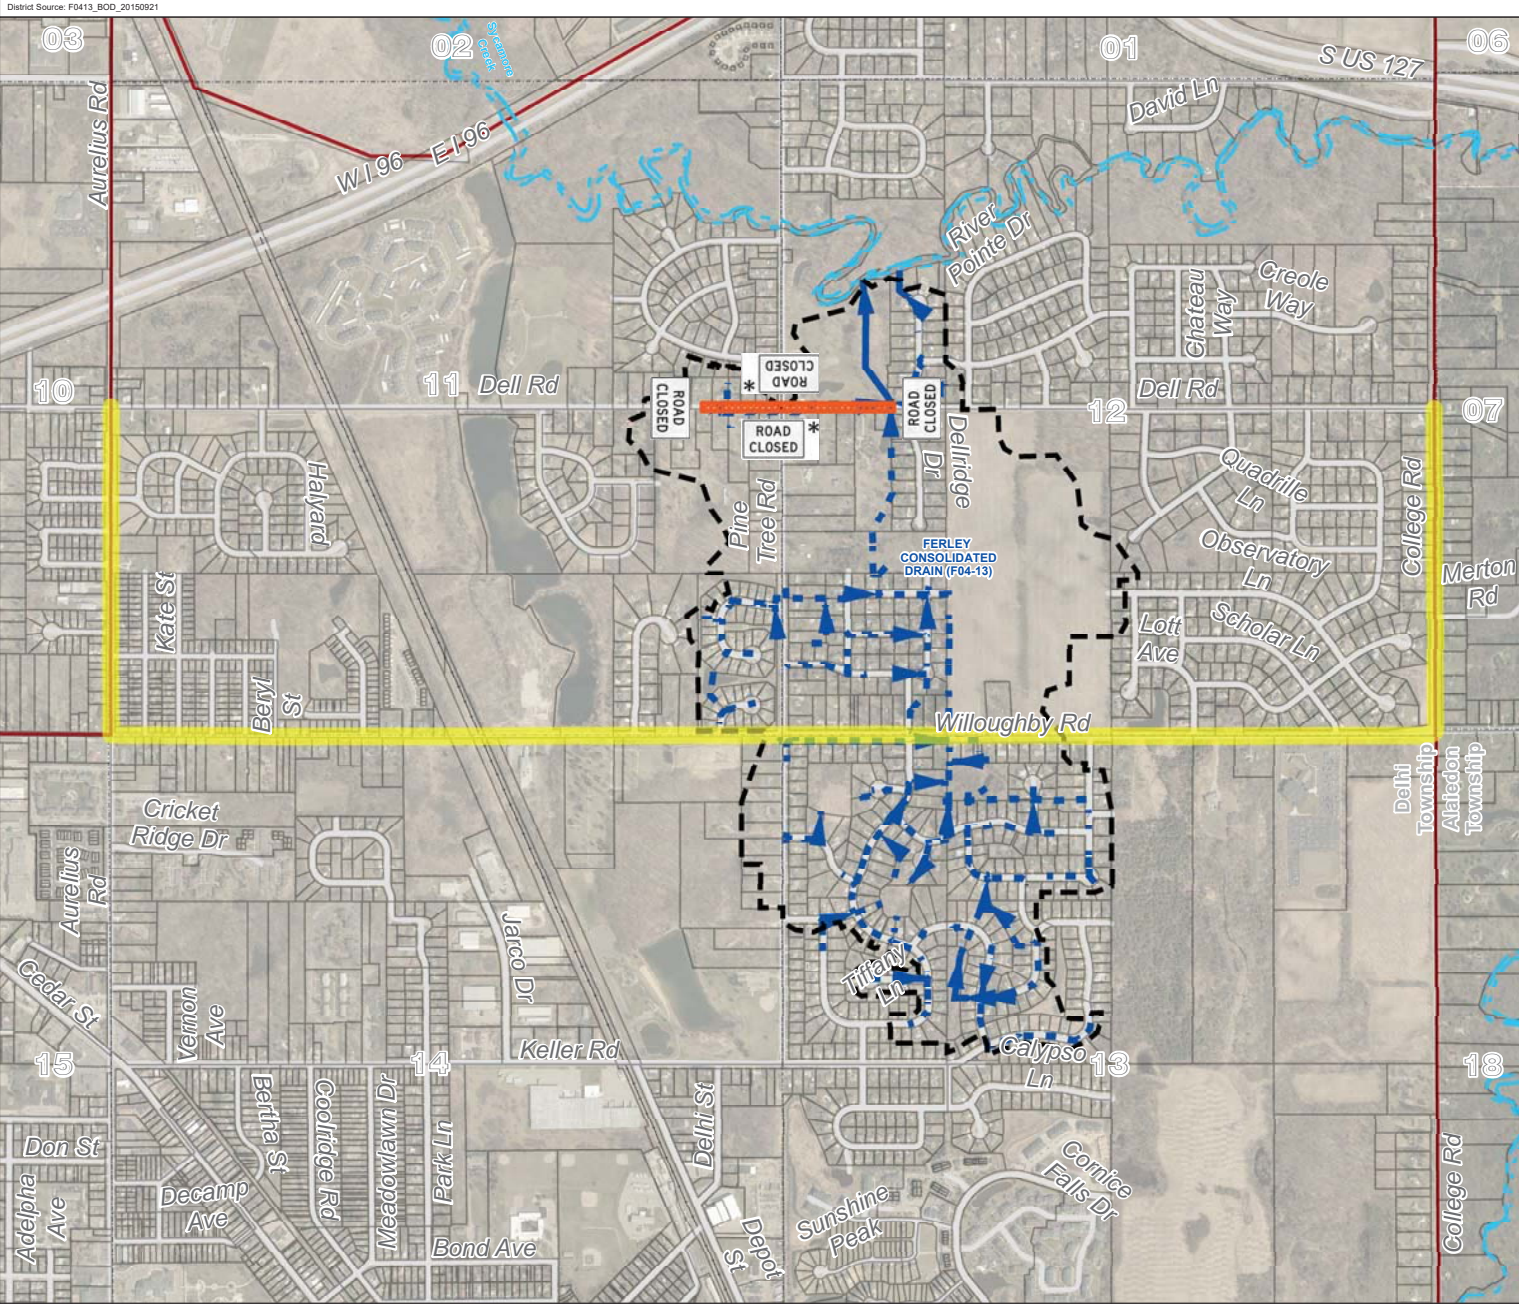

Patrick E. Lindemann  
Ingham County Drain Commissioner
